# CIVIL ENGINEERING PE REVIEW COURSE

Hosted by the American Society of Civil Engineers East Central Branch YMF

Prepare for the breadth and depth of the Civil PE Exam with university professors and highly qualified practicing professional engineers; enhance your knowledge and skills needed to pass the PE Exam; and increase your earning potential.

## COURSE FORMAT

Twelve sessions designed to acquaint you with the fundamental knowledge, concepts and equations you will need to pass the Civil PE Exam.

- Sessions held Mondays from 6:15 PM – 9:15 PM
- Practice problems modeled after exam questions
- Handouts emailed prior to each session

## NEW! TRANSPORTATION DEPTH SESSION

An additional three hour session specifically dedicated to the topics covered in the transportation afternoon depth exam. This supplementary session will be scheduled for Wednesday, September 9th, if interest warrants, and will cover transportation planning and traffic engineering topics.

## WEB CONFERENCING

Interested in the review but downtown Orlando is too far of a commute?

- View the professor's computer presentation in real time on your own computer through GoToMeeting
- Listen through teleconferencing
- Supplemental email will be sent the following day with any additional notes provided during the course session

## COURSE LOCATION

Convenient Downtown Location: Glattig Jackson Kercher, 120 N Orange Ave, Orlando
